01 CAREER OBJECTIVE

AI Application Developer Intern with hands-on experience in building Python-based machine learning applications, including computer vision projects. Strong foundation in data preprocessing, model development, and real-world AI problem solving.

02 TRAINING

June2025-January2026

AI App Developer Intern

- Developed AI-based applications using Python and machine learning techniques.
- Built computer vision applications such as face detection using image preprocessing and ML models.
- Performed data cleaning, feature extraction, and model evaluation to improve application reliability.
- Integrated trained ML models into Python applications for real-world implementation.
- Worked on end-to-end AI application development from data preparation to deployment

03 EDUCATION

Bachelor of Technology

Gandhi Institute For Technology,Bhubaneswar
(2022 - 2026)

H.S.C - 70%

Pattamundai Higher Secondary School (2020-2022)
